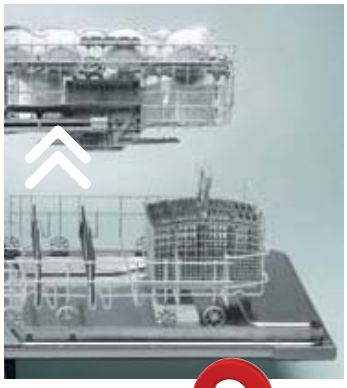
dishwashers'

free-standing' p.132-133
built-in' p.136-138

triple A ecological

thinking about you and your environment’



40% saving energy

25% saving water

Variable Plus Consumption.

Adapts its consumption levels to the number of dishes, thus saving a significant amount of water, energy and time.

And, with Duo Zone, we can run 3 types of washes: intensive wash on the lower rack, gentler wash on the top, or both simultaneously.

25% saving water

Eco-sensor.

Measures the dirtiness of the water. If the water is clean, it is reused – saving 25% more water, while also saving you considerable energy and time.

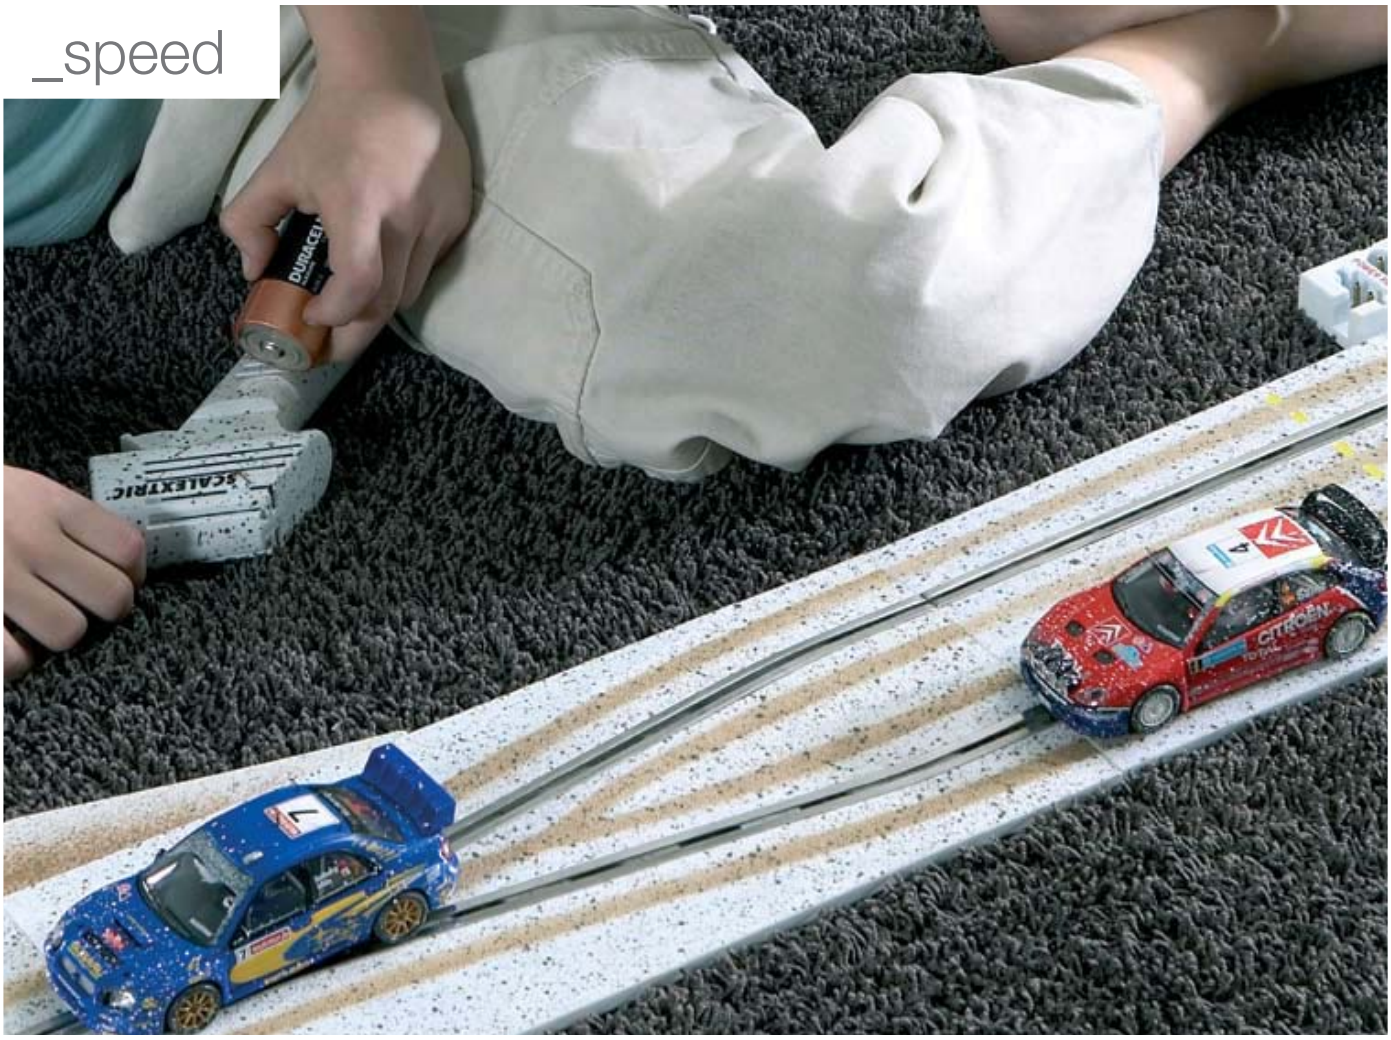
_speed



do you want to save time?

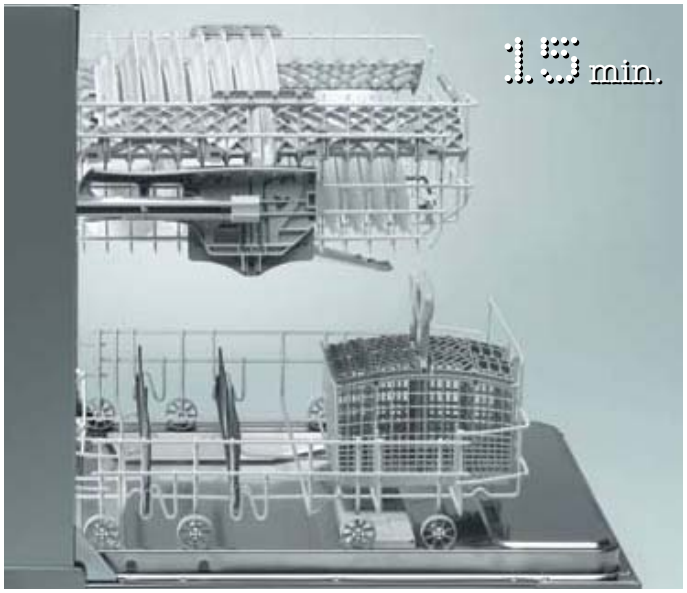
For when you're in a hurry, this option can reduce the selected programme's time by 30%.

time reduction

exclusive

express
15 minutes

Express Programme 15 minutes.
If you're only washing a few dishes and you want them done quickly, place them on the top rack and select this programme.



Delayed start.
By delaying the start of a wash, we can save up to 55% on electricity, thanks to night rates. Depending on the model, you can delay the programme by 3, 6, 9, 19 or 24 hours.

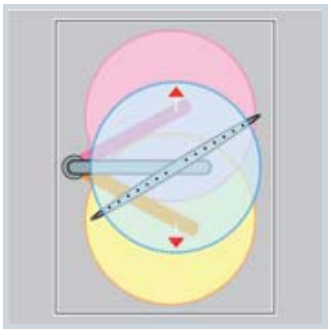
_comfort

super silent system

The lowest noise levels on the market thanks to their perfect insulation and robust design.

Perfect Drying.
An extractor absorbs the steam at the end of the wash so that opening the door is both cleaner and healthier.

Hygienizer Programme.
Wash at 70ºC and rinse at 75ºC for maximum hygiene.



Bidirectional spray arm in 45 cm models.
Moves between the front and the back of the drum, ensuring a more intensive wash.

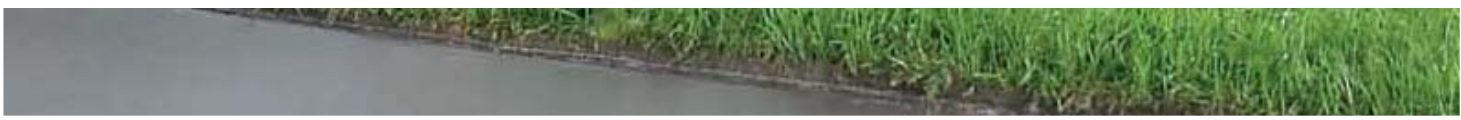
combined detergents

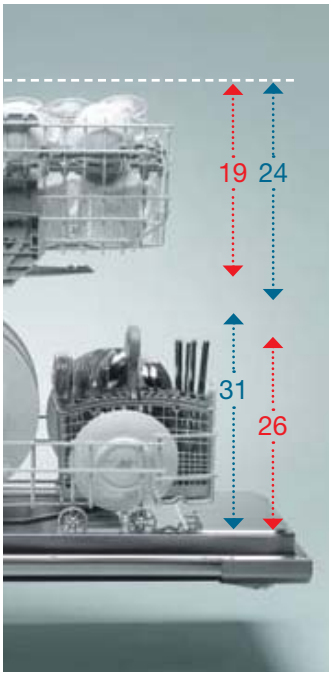
Designed for combined detergents.
These detergents can be used in 5 programmes: Normal, Automatic, Hygienizer, Intensive and Double Intensive.

_easy to use

making life easier

The racks can be placed in various positions, making loading the dishes easier.





SUPER-EASY UPPER RACK.
You can adjust the height without having to take it out, even when it's full.

Telescoping runners for a smooth action and total stability.

Ergonomic handles with better grips.

Moveable bar with 4 different positions.

LOWER RACK.
Now much easier to access, so you don't have to strain.

Folding supports to adjust the space to different pans.

Pulling out the rack has been made safer and more convenient.

2-in-1 silverware basket, can be split into two separate parts.

_built-in

can be built in to blend with its surroundings

And with the easiest and fastest installation on the market.

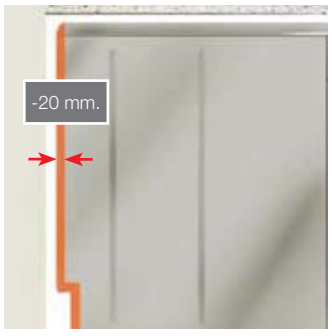
front
adjustment

installation steps

Height adjustment from the front.
All you need is a screwdriver to lift the back legs to make it perfectly level.

Adjust the door to the weight of the panel.
You can do this from the front without having to take it apart. Thus, opening will be smooth and gradual, ensuring that the door will not fall sharply.

Double fixing kit.
Can be fixed to the worktop above as well as to the side cabinets.



20 mm shallower.
This reduced depth gives you more free space for the connections at the rear of the apparatus.

BlackArt

The power of a new attraction

Before your eyes you have a new form to decorate, to live your experiences in house. A work with the most exclusive signature.

BlackArt is a new concept of electric home appliances jointly developed by Fagor and the designer Frederick Misik.

It watches it from close, watches it from far, its elegance will shine the same. With BlackArt you are going to discover a new world of aesthetic sensations.

The **BlackArt creation** is made up of these **3 products**

(1) Climate Class SN-T: Room temperature between +10° C and + 43° C

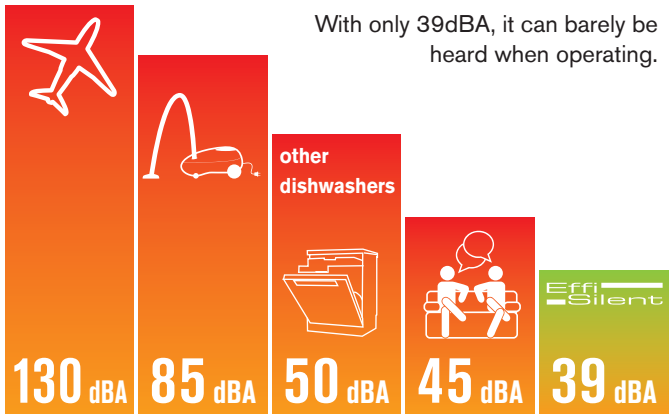
* According to the results obtained in the standard 24-hour test. Real energy consumption depends on the usage conditions of the product and its location.

Dishwashers

The most efficient and silent on the market

EffiSilent

With only 39dBA, it can barely be heard when operating.



39 dBA

NOISE LEVEL

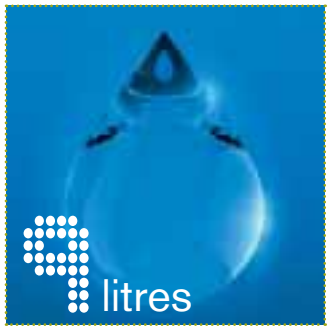
Responsible consumption

The lowest water use on the market.

Only requires 9 litres of water to leave your dishes spotless. Sustainable consumption.

The most efficient on the market.

Save money and protect the environment. The best energy performance with 0.95 kW/h consumption..



A+

ENERGY

~ maximum cleaning power

the ideal wash for your dishes and dishwasher

Cyclone Spray Arm. exclusive

We have achieved the highest wash efficiency on the market by increasing the water pressure by 80% in the Cyclone Spray Arm. This ensures a more intense cleaning.

Aqualisis. exclusive

Exclusive Fagor programme for cleaning the inside of your dishwasher perfectly. By using normal detergent or a specific product, this program prevents residue from building up and lengthens the dishwasher's service life.

OptiA 60 minutes. exclusive

Exclusive Fagor program. Proven, AA rated, maximum washing and drying efficiency for a full load of dishes in about 60 minutes.

OPTI A 60 MINUTES

Cleans and disinfects while saving

~ food safety

the most hygienic space for your dishes

Hygienizer Programme.

A wash at 70 °C and rinse at 75 °C guarantees utmost hygiene for your dishes so that your can better enjoy your meals.

Perfect Dry.

Takes care of your dishes, takes care of you. Prevents that annoying burst of heat and steam when opening the door and thus protects your cabinets.

Hydroforming Technology.

The one-piece Fagor dishwasher drum is sturdier, shinier and makes the interior appear cleaner.

Third Spray Arm.

The third spray arm guarantees a more complete clean thanks to its increased pressure and diffusion of water that removes all dirt and grime.

Prewash Programme.

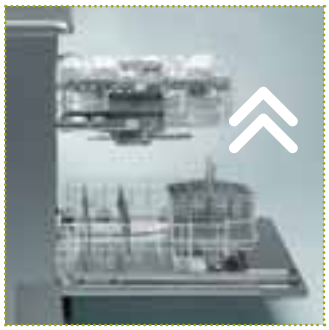
With just 3 litres of water, this prewash prevents odours from forming and dirt from drying on the dishes until you definitively run the dishwasher.

Duo Zone.

Option to use either of the baskets independently, adjusting to your needs.

Variable Consumption.

The best system on the market for lowering water and energy use. Depending on the amount of dishes loaded, it adjusts the consumption from a minimum load of 1 place setting up to a full load.



~ responsible consumption

you save money and the environment will thank you

A+ A A

Auto Programme.

The dishwasher optimizes the temperature, time and amount of water to be used for each wash. Maximum clean for your dishes and maximum savings for you.

Ecosensor.

Measures the dirtiness of the water. If the water is clean, it is reused – saving 25% more water, while also saving you considerable energy and time.

Lavarmonía: details for your wellbeing

Fagor dishwashers have been specially designed to make loading and unloading your dishes as easy as possible. Ergonomic studies were performed so that your movements could be safer and more comfortable.

Upper basket

ESPACE

Upper compartment for detergent.

Exclusive Fagor system. The detergent compartment has been placed in the upper part of the dishwasher to allow more comfortable, ergonomic access

Maximum capacity and ergonomics.

The upper basket is designed to hold 20% more glasses than the market average. Its exclusive pyramid structure and folding support design allows dishes to be conveniently placed.

Non-slip system.

Its non-slip rubber finish, fixing and stability for the most fragile dishes are impeccable.

Satellite Cutlery Basket.

Allows greater loading flexibility; cutlery can even be placed in the upper basket.

Lower basket

ESPACE

Gliding cutlery basket.

Easily glides on a track so you can move it to wherever it is most convenient for you.

Extraction safety.

This exclusive Fagor system offers the safest extraction on the market thanks to its outlet catch.

~ ease and quickness

we simplify your everyday chores

EXPRESS 15 MINUTES

Express 15 minutes.

The fastest wash programme on the market allows you to reuse your favourite dishes in record time

exclusive

TIME REDUCTION

Programme time reduction.

You can decrease the time of any programme by more than 30% while maintaining optimum hygiene and disinfection.

Cutlery basket can be split into two separate parts.

Maximum versatility to adjust to your needs. The Fagor dividable cutlery basket allows you to place cutlery where it best suits you.

TOUCH CONTROL

Touch control.

The Fagor dishwasher keys are touch sensitive and easy to use and clean.

Super-easy basket and folding supports.

Adapt to your needs. You can regulate the height of the upper basket, even when it is full. And you can easily fold down the supports. Maximum convenience.

Effi Silent

Built-in dishwashers, adapt to any kitchen setting

The Fagor Built-in dishwashers are the easiest to install.

Opening adjustment.

A consistently smooth and gradual opening. The opening of the door can be adjusted to the weight of the panel.

Double fixing.

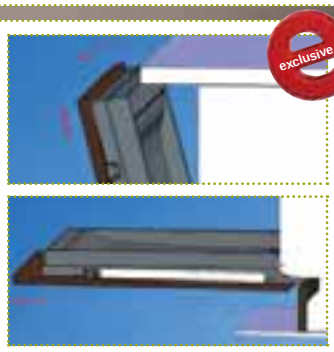
Prevents vibrations during wash with double fixing: to the worktop and side units.

Back legs can be adjusted from the front.

Maximum ergonomics: The back legs can be adjusted from the front of the machine.

Elevated integration.

The entire Fagor built-in range can be installed at the height you desire; the most ergonomic and comfortable for you.



Installation accessory for sliding door.

The most flexible installation on the market. Exclusive for the ES30 IT model. Allows installation of a door up to 760 mm and of a **plinth 90 mm** or larger.

Touch Control.

Feel the soft touch and avant-garde aesthetics of the Touch Control keys.
